

PRODUCT SPECIFICATION

PS-501

SPECIFICATIONS

Product information

Shell material	ABS
Weight	450 g
Product size	132*69*50 mm

Electrical

Rated Voltage	220V AC / 240 AC
Power	3 W
Peak load	200 W

Internal fuse - overload safety protection design and double protection of power supply

APPLICATION

PS-501 The unique output matches the system, which can transmit the air quality signal to the central system computer for monitoring. It can also connect multiple groups of different models of ion generators at the same time. It is easy to connect with the positive and negative ion generator, and install the air quality sensor on the air outlet pipe or air inlet pipe or ceiling. The ion setting value is calculated according to the actual environmental area or odor concentration. The blue data can be set from 1-9, and the green data can be adjusted according to the actual concentration to obtain the corresponding ion number.
